Functions and status

DRAFT – Working version of a text/package leaflet. The draft version contains alterations compared to the last approved version. Only persons with author licenses will see the draft version of a document.

Side | 2

APPROVED – Main version of a document. The approved version contains no changes, and it is identical to the text/package leaflet published on the website www.felleskatalogen.no. Persons with author or reader licenses can see the approved versions of a document.

CHECK OUT AND DOWNLOAD – Use this function whenever you need to change a text. A copy of the text will be downloaded to your computer, and you have locked the document for editorial changes by others.

REPLACE – Use this function whenever you need to upload a version with editorial changes.

ADD DOCUMENT – Use this function whenever you need to upload a new text/package leaflet (with no earlier versions available in SharePoint).

PUBLISH A MAJOR VERSION – Use this function whenever you would like our editorial staff to look at the latest version with editorial changes. An automatic alert goes from SharePoint to our editorial staff.

PENDING – Status of a version after you have chosen Publish a Major Version.

VERSION HISTORY – Use this function if you would like to see comments and earlier versions (draft and approved) of the document.

EDIT PROPERTIES – Use this function if you would like to change the name of the document.

Overview

FRONT PAGE

From the front page you can navigate to the document folders, read the latest announcements from Felleskatalogen and see all documents checked out by you.

DOCUMENT FOLDERS (FK, MH AND VET)

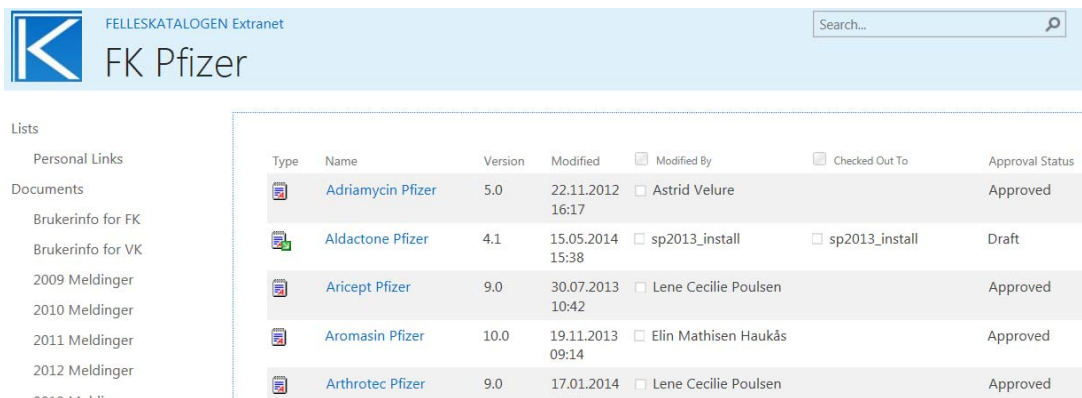

There are three kind of folders available in SharePoint 2013; FK, MH and VET.

FK – For Felleskatalog texts. Use rtf files only.

MH – For package leaflets (PILs). Use doc or docx files only (preferable docx).

VET – For both veterinary Felleskatalog texts and veterinary package leaflets. Use rtf files for veterinary Felleskatalog texts, and doc/docx files for package leaflets.

In the folders you will find all documents for a given marketing holder, and you can check the ‘Approval Status’ for each of them.

How to use

NEW DOCUMENT (APPLY FOR ALL FOLDERS: FK, MH AND VET)

NEW VERSION OF AN EXISTING DOCUMENT (FK TEXT AND VET TEXT)

Activate the pull-down menu by clicking to the right side of the document name.

	Polymyxin B Pfizer		10:30
	Terramycin-Polymyxin B Pfizer	5.0	05.03.2013 10:29
	Test Pfizer NEW	0.1	16.06.2014 10:37
	Torisel Pfizer	6.0	06.01.2014 11:27

Choose 'Check Out and Download' from the pull-down menu.

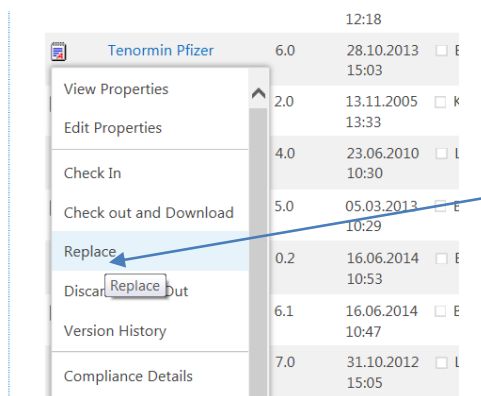

You have now locked the document for editorial changes by others (the document is checked out), and you can choose where you would like to save the document on your computer.

The document gets automatically the version number as a part of its name.

After you have added changes to the text, you must upload the text with changes to SharePoint. Activate the pull-down menu by clicking to the right side of the document name. Choose 'Replace' from the pull-down menu.

Choose a file saved on your computer, and add a comment if necessary. Click 'Replace'. Under 'Replacement options' you should choose 'Publish a new major version' (default). The document is placed in status 'Pending' and an automatic alert goes to our editorial staff.

Important! You can only replace a doc file with a doc file, and a docx file with a docx file. We prefer docx files, so if earlier versions are available as doc files, please use 'Add document' instead, and upload the documents as docx files. Please do not delete existing doc files in SharePoint. The editorial staff will delete these files at a later stage. Be aware that SharePoint do not understand that the filename endings .DOC and .doc is the same (or .DOCX and .docx), you should therefore always use small letters in the filename ending. To see the filename endings you have to unhook 'Hide filename endings for known file types' under 'Folder options' in the 'Control panel' on your computer.

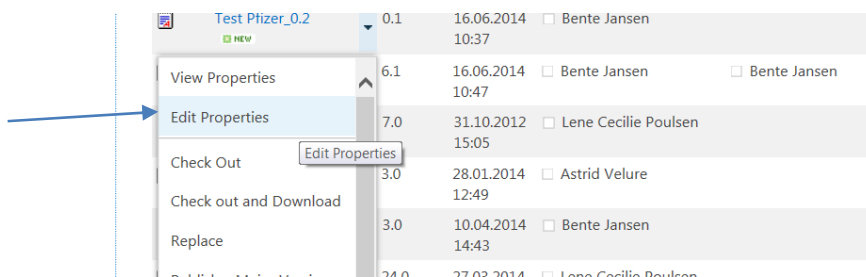

CHANGE NAME OF DOCUMENT

Activate the pull-down menu by clicking to the right side of the document name.

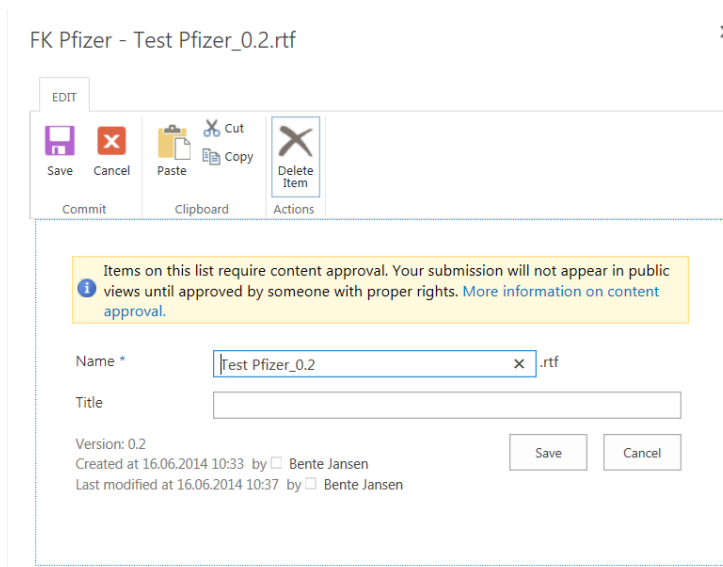

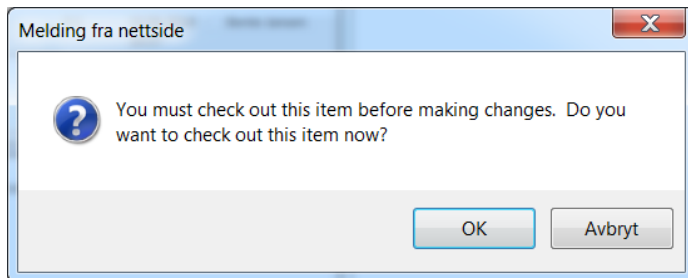

Side | 9

Choose 'Edit Properties' from the pull-down menu.

Click 'OK' on the question you get if you would like to check out the document.

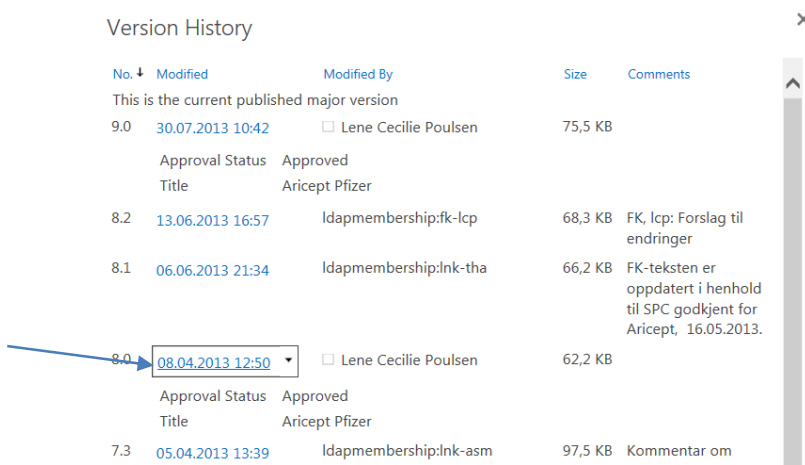

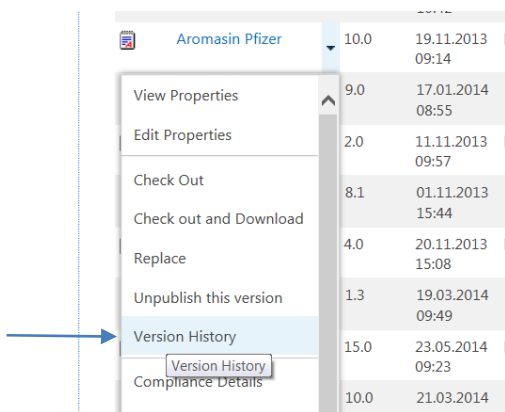

Give the document a new name and click 'Save'. Choose 'Discard Check Out' from the pull-down menu, if there is no need for a new version of the document.

LOOK AT THE VERSION HISTORY

Activate the pull-down menu by clicking to the right side of the document name.

Choose 'Version history' from the pull-down menu.

Click on the date written in blue to open/save a specific version.

DELETE A DOCUMENT

Please notice our editorial staff by sending an email to manus.fk@lmi.no

Do not delete the document in SharePoint. Our editorial staff will follow up SharePoint at a later stage in the process.
